***Claim Objections***

5. Claim 1 is objected to because of the following informalities: line 18, "temporality" should be changed to --temporarily--. Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-4 and 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Shishikui et al (5,534,927) for the same reasons as set forth in Section 7 of the previous office action, paper number 10, dated 11/30/01.

***Response to Arguments***

8. Applicant's arguments filed 7/2/02 have been fully considered but they are not persuasive.

Applicant asserts on pages 4 and 5 of the Remarks that Shishikui et al does not disclose the newly amended limitations. However, Figure 9 of Shishikui et al illustrates the concept of such well known first buffer 54-1 to temporarily store the output main bit stream; a second buffer 54-3 to temporarily store the output subsidiary bit stream; and a multiplexer 82 to receive

the main bit stream temporarily stored in the first buffer and periodically receive the subsidiary bit stream temporarily stored in the second buffer.
